

DO YOU HAVE A PASSION FOR RESEARCH?

Introducing the Osteo Science Foundation OMS Research Fellowship

Designed especially for individuals in between dental school and OMS residency, the Osteo Science Foundation OMS Research Fellowship is a unique career development opportunity offering hands-on research experience in regenerative medicine with a strong one-on-one mentoring component.

Based at one of our participating sites, Fellows will get a career jump-start through this one-year, intensive lab-based training program focused on regenerative medicine research.

Apply December 21, 2021 through January 31, 2022

The Osteo Science Foundation OMS Research Fellowship

Duration:

1 year (July 1, 2022 – June 30, 2023)

Eligibility:

- Must reside in U.S. or Canada
- Completed U.S. or Canadian dental school, or in final year
- Intent to pursue career in OMS

Remuneration:

Annual salary plus benefits

Participating Locations:

- Loma Linda University, Loma Linda, CA
- The University of Texas Health Science Center, Houston, TX
- University of Pennsylvania, Philadelphia, PA

Osteo Science Foundation's mission is to advance hard and soft tissue regeneration, with a focus on Oral and Craniomaxillofacial Surgery. The Foundation was established by Dr. Peter Geistlich in 2013 and is funded by Geistlich Pharma, a global leader in regenerative medicine for dental, oral, and maxillofacial surgery. Osteo Science Foundation is dedicated to advancing scientific research and education that leads to improved outcomes for patients, and operates as an independent, privately-funded 501(c)(3) non-profit organization.
